

## Upgrade Your Water !

### Polyphosphate Siliphos Antiscalant Crystal Balls Water Treatment - Food Grade Scale Inhibitor

### Polyphosphate Food Grade PS Siliphos balls filter

**FOOD GRADE** suitable to use for drinking water

**PROTECTS** water systems against scale formation and corrosion

**PREVENTS** "brown" water and clogged pipes

**SAVES** expensive repairs or replacement cost

**EXTENDS** the life of your water installation

#### Operation:

Very convenient to use, no maintenance, no power consumption, minimal head pressure loss.  
What users need to do is to replenish the balls or filter cartridge every 6 - 12 months.  
(depends on water quality conditions)
